## RESOLUTION

Designating June 15, 2021, as “World Elder Abuse Awareness Day” and the month of June as “Elder Abuse Awareness Month”.

Whereas, in 2021, approximately 55,000,000 residents of the United States, or about 1 in every 6 individuals, have attained the age of 65;

Whereas elder abuse remains a challenging problem and can come in many different forms, often manifesting as physical, sexual, or psychological abuse, financial exploitation, neglect, and social media abuse;

Whereas elder abuse, neglect, and exploitation have no boundaries and cross all racial, social, class, gender, and geographic lines, according to the Elder Justice Coalition;

Whereas more than 1 in 10 individuals in the United States over the age of 60 have been subjected to abuse each year, with many such victims enduring abuse in multiple forms, according to the American Journal of Public Health;

Whereas most reported cases of abuse, neglect, and exploitation of older adults take place within private homes, and approximately 90 percent of the perpetrators in elder financial exploitation cases are family members or other trusted individuals, according to the National Adult Protective Services Association;

Whereas research suggests that elderly individuals in the United States who experience cognitive impairment, physical disabilities, or isolation are more likely to become the victims of abuse than those who do not experience cognitive impairment, physical disabilities, or isolation;

Whereas other risk factors for elder abuse can include low social support, poor physical health, and experience of previous traumatic events, according to the National Center on Elder Abuse;

Whereas close to half of elderly individuals who suffer from dementia will experience abuse during their lifetime, according to the Department of Justice;

Whereas only a small fraction of elder abuse cases are reported to the authorities;

Whereas, on June 15, 2021, which was World Elder Abuse Awareness Day, the United States mourned the loss of a disturbing number of older people in the United States, who perished in nursing homes and other long-term care facilities during the COVID-19 pandemic;

Whereas, the COVID–19 pandemic also has led to the emergence of new scams against older adults, including those related to vaccines;

Whereas, there has been an increase in hate crimes committed against older, Asian Americans during the COVID–19 pandemic;

Whereas, Congress recently passed and the President signed 2 measures that make nearly \$400,000,000 available for implementation of Elder Justice Act (42 U.S.C. 1395i–3a et seq.) initiatives, the largest funding stream related to such initiatives in the history of the Act; and

Whereas Congress, in passing the Elder Justice Act of 2009 (42 U.S.C. 1395i–3a et seq.), the Older Americans Act of 1965 (42 U.S.C. 3001 et seq.), the Elder Abuse Prevention and Prosecution Act (34 U.S.C. 21701 et seq.), the American Rescue Plan Act of 2021 (Public Law 117–2), and the Consolidated Appropriations Act, 2021 (Public Law 116–260), recognized the importance of protecting older people of the United States against abuse and exploitation: Now, therefore, be it

12           pecially during the ongoing COVID–19 pan-

18                        abuse, neglect, exploitation, crime, and violence  
19                        against vulnerable adults, including vulnerable  
20                        older adults, particularly in light of limited re-
